

Battle Ship Game:

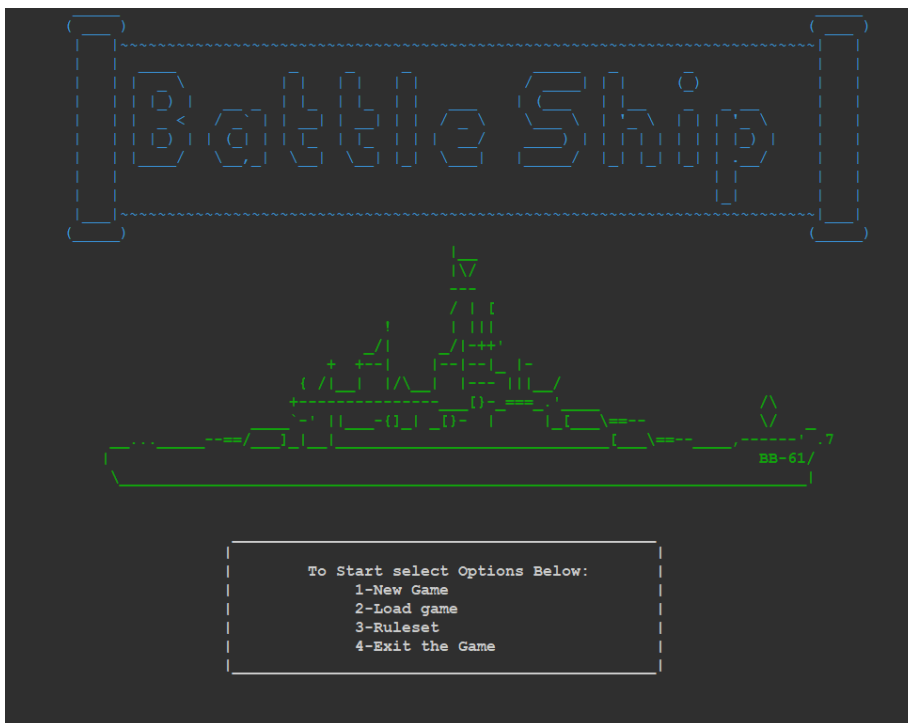

Game Manual: Battleship

Welcome to Battleship! In this game, you'll engage in a strategic naval battle against the computer. Your mission is to sink all of the enemy's ships before they sink yours. Let's dive into the details:

Game Objective:

Sink all of the computer's ships before they sink yours.

Game Setup:

Run the game.

Choose your options from the main menu:

1. New Game: Start a new game.
2. Load Game: Load a previously saved game.
3. Ruleset: Learn the rules and instructions of the game.
4. Exit the Game: Exit the game.

Gameplay:

```

Welcome to the BattleShip Game!, Please put your name Before to Start:
Bruno

          Bruno Please setup your SmallShip, put your ship vertical cordinales to 0-9 :
0
          Bruno Please setup your SmallShip, put your ship cordinales vertical to A-J:
A
Nice
```

You will start by placing your ships on the grid. You have two ships:

Small Ship (3 squares)

Big Ship (5 squares)

Enter the coordinates for each ship:

For the Small Ship, input vertical and horizontal coordinates within the range 0-9 and A-J, respectively.

For the Big Ship, input horizontal and vertical coordinates within the same range.

Once both players have placed their ships, the battle begins!

H										
I										
J										

Each turn consists of:

You guessing a coordinate to attack the computer's ships.

The computer randomly selecting a coordinate to attack your ships.

If you hit an enemy ship, it will be marked with an "X". If you miss, it will be marked with "*".

The game continues until all of one player's ships are sunk.
